RML Example 40: Doc_programming

RML (Report Markup Language) is ReportLab's own language for specifying the appearance of a printed page, which is converted into PDF by the utility rml2pdf.

These RML samples showcase techniques and features for generating various types of ouput and are distributed within our commercial package as test cases. Each should be self explanatory and stand alone.

I should NOT have a tiny leading space in front of me!

This is spaced. There should be 12 points before and after.
